

Dear Sir:

We recently contacted your company through a recommendation of friends to resolve a problem we had been experiencing. Pat Torre came out and thoroughly inspected the situation and gave us an estimate and explained what needed to be done.

After having the work done in November, we have not had a water problem since and have no longer noticed a moldy odor in the house. We are completely satisfied with the job that was done. We were very impressed with Pat Torre's professionalism and the outstanding workmanship that was done by all of your men. They had a tough task of cleaning out the thick layer of mud while working in a limited space area, but were able to neatly and efficiently complete the job and also ensure they they did not track any dirt into the house. They thoroughly cleaned up upon completion.

Thank you for doing such a fine job. We wouldn't hesitate to recommend your company to others should they need your services. Please extend our appreciation to all of your people for their excellent work and courteous attitude.

Sincerely,

*D.A.*
