

Dear Pat:

I wanted to take some time to thank you personally for the professional attitude American Waterproofing has demonstrated. This entire process was very lengthy. We have spent three or more years researching what waterproofing company to deal with and finally, we made a match.

Thanks to American, we won't have to deal with a water problem any more.

I also want to take the time to say that Jason Heggan and the rest of the guys were extremely polite and very easy to deal with. They made the experience worth the wait.

Thanks again for your attention to detail! Should we know anyone that may need a "French Drain" we will be sure to have them contact you.

Sincerely,

P. H.

Cherry Hill, NJ
